A Perladelphia correspondent of the New York Tribune denies the story about Mr. S. VanAmringe of this city being heir to a portion of the Centenat about \$15,000,000. The land mettioned in Mr. VanAmringe's deed is said not to be within the city limits

The buly of Richard Potter, the colored man drowned off a wood flat a covered Tuesday near the spot where was not field and held an inquest when a veid et was returned in accordance with the facts as stated.

Receivers Appointed.

On application of the con sel for the holders of the first mortgage bonds of the Carolina Central Railway for a receivership pending foreclosure procerdings, Judge McKoy has entered at order appointing Dr. C. H. Roberts, the present president of the road. Capt. I. B. Graing r, the vice-president, and Hon. Andrew V. Stout, president of the Shoe and Leather National Bank of New York, as such receivers. The receivers have given bond in \$50,000, and the road is now in their custody: Arrangements will rearages due employes. The action for forcelosure became necessary in order to protect the interests of the bondholders, but instead of its implying any reflection upon the recent management of the road, it must be considered that the appointment of the individuals mentioned as receivers is equivalent to a vote of confidence on the part of the bondholders.

already expired, and unless we hear from them immediately, we will be compelled to discontinue the paper. APPLETON'S AMERICAN CYCLOPÆDIA

parts of th United states, and the signal de-parts of th United states, and the signal de-velopments which have taken place in every branch of science, literature, and art, have in-duced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitle THE AMERICAN CY-ILOPÆDIA. Within the last ten years the progress of dis-covery in every department of knowledge has made a new work of reference an imperative The movement of political affairs has kept

pace with the discoveries of science, and their fruitful application to the industrial and use-ful arts and the convenience and refinement of social life. Great wars and consequent revolu-tions have occurred, involving national changes of penging words. tions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa. plorers of Africa.

The great political revolutions of the last decade, with the natural result of the laste of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is only in the newspapers or in the transient pub-lications of the day, but which ought now to take their place in permanent and authentic

history.

n preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the informatio to the latest possible dates, and to furnish an accurate account of the most recent discoveries in acience, of every fresh production in literature, and of the newest inventions in the practical acts, as well as to give a succint and origins cal events.

The work has been begun after long and careful preliminary labor, and with the most

careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvement in its composition as have been suggested by longer experience and enlargedk nowledge.

The illustrations which are introduced for the first time in the present edition have been adfirst time in the present edition have been ad-ded not for the sake of pictorial effect, but to give greater lucidity and force to the explana-tions in the text. They embrace all branches of science and of natural history, and depict the nost famous and remarkable features of scene-architecture, and art as well as the various sees of mechanics and manufactures. Al-b intended for instruction rather than Lishment, no pains have been spared to nsur: their artistic excellence; the cost of heir execution is enormous, and it is believed will find a welcome reception as an ad-irable feature of the Cyclopædia, and worthy

Its high character.
This work is sold to Subscribers ble on delivery of each volume. It will be com-pleted in sixteen large octavo volumes, each contaieing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

etc., will be ent gratis, on application. FIRST-CLASS CANVASSING AGENT D. APPLETON & CO.,
